

## **Perfect for families: HOBBY DE LUXE with seven berths**

**In the DE LUXE 515 UHK, Hobby is presenting a caravan with a fold-down bed for the 2018 season for the first time. This model offers seven berths in total.**

The DE LUXE is also raising no doubts that it is an ideal companion for families in the 2018 season. Almost half of all the layouts of the series are tailored for this target group, because five of the twelve model variants bear the letter K, which stands for children's beds at Hobby, in their type designation.

In the family-friendly DE-LUXE MODELS segment an extraordinary innovation is celebrating its premiere in the 2018 season. Namely the DE LUXE 515 UHK offers not only a generously-sized children's section with a bunk-bed in the caravan bow, but also a fold-down bed for two people above the rear round seating group. Anyone converting the two seating groups in the DE LUXE 515 UHK will reach an incredible seven (4+3) berths. For a single-axle vehicle just 2.30 metres wide, that's virtually record-breaking.

Alongside layouts with children's beds the DE LUXE series offers all common variants with single and double beds. The range in this segment extends from the compact tourer caravan DE LUXE 400 SFe with a French bed up to the 540 UL with single beds.

Thanks to the high value HOBBYKOMPLETT full equipment the DE LUXE – like all the other caravans from the brand – meets all the important requirements made of mobile comfort already factory-fitted. Thus ten of the twelve new DE-LUXE MODELS in total are equipped with the 150-litre Super Slim Tower fridge. In this respect too the DE LUXE proves to be particularly family friendly.

The starting price for the DE LUXE segment is 16,960 euros for the DE LUXE 400 SFe. The fold-down bed caravan 515 UHK costs 21,780 euros.
